

# AUMC Research Agenda

## Cereal Grains

- \*Wheat
  - Variety Evaluations
  - Fertilizer Placement on Wheat
- Barley
  - Variety Evaluations
- \*Oats
  - Variety Evaluations

## Oil Crops

- \*Linseed
  - Variety Evaluations
  - Fertilizer Rates
  - Seeding Rates
- \*Safflower
  - Variety Evaluations
  - Seeding Rates
  - Fertilizer Rates
- \*Camelina
  - Production Evaluations

## Field Crops

- \*Alfalfa and Forage
  - Forage Quality Evaluations
  - Variety Evaluations
- \*Dry Beans
  - Variety Evaluations
- \*Popcorn
  - Variety Evaluations

## Mixed Vegetables (Organic)

- \*Evaluations of Commercial Asparagus Production
- \*Various Greenhouse Production Practices on Multiple Varieties
- Selected Varieties for Field Planting

## Fruits & Berries

- \*Apples
  - Variety Evaluations
  - Evaluations on Hedge-Row Production
- \*Berries
  - Establish Plantings of Mixed Vine-Berry Production
  - Establish Blueberry Production Evaluations
  - Development of Blueberry Production
- \*Other Fruits
  - Determine Feasibility of other Tree Fruit Variety Plantings
- Additional Project Developments
  - \*Determine Feasibility of Commercial Culture of Native Mushrooms
  - Explore the Advantage of Developing a Market Garden Delivery System for Excess Vegetable Production
  - \*Explore the Legalities of Producing Hemp in Lithuania

\* Indicates New Crop Introductions
